

THE DIVINE → EXCHANGE

When Adam and Eve disobeyed God, something terrible happened to the creation over which these two were to control. Man died or was separated from God and the creation was subjected to decay.

This was and is a horrible situation. But, God

Almighty would not leave Man or the creation in this terrible plight forever. God sent another Man to make a completely new human race and that same Man would also make a new Heaven and new Earth. This new human

race would never die (be separated from God) and this new creation would never see death and decay.

Jesus Christ made a new creation of man and one like Himself — perfect and righteous before God.

Jesus first lived the life a man is supposed to live before God. Jesus did God's will at all times. He was obedient to God as a man was supposed to be. Jesus and only Jesus **represents** the human race perfectly before God. Then Jesus sacrificed Himself to be sin for us so we could be His righteousness.

This is the Divine Exchange. Jesus took our sins and paid them off. Then He gave us His righteousness. It is like He took our F- with God, paid it off, and then gave us His A+ with God.

Only God could think up a plan like that Divine Exchange.
